

Industrial & Molecular Pharmaceutics Seminar

IMPH 69600

Wednesday, April 10, 2024
4:30 PM in RHPH 164

“Bioinformatics Core – Resources and Services”

Dr. Jyothi Thimmapuram
Purdue University
Bioinformatics Core Director

This seminar will provide information on various resources available at Purdue University to generate and analyze data for different ‘-omics’. Emphasis of the discussion will be on RNA-Seq data analysis. Brief description of other omics applications of Next Generation Sequencing, proteomics and metabolomics will be presented. The seminar will be followed by Q&A.
